

PRESS RELEASE

28 March 2022

Reaction to press reports

InPost has noted speculation in press reports about the interest of certain parties in acquiring InPost. Although parties may from time to time approach InPost or its majority shareholder, InPost is currently not in discussions with such market parties nor is it aware of such discussions being ongoing.

Public disclosure of inside information in accordance with article 17(1) of the Regulation (EU) No 596/2014 on market abuse (Market Abuse Regulation)

About InPost

InPost (Euronext Amsterdam: INPST) is the leading out-of-home e-commerce enablement platform in Europe. Founded in 1999 by Rafał Brzoska in Poland, InPost provides delivery services through our network of more than 20,360 Automated Parcel Machines (“APMs”), including over 3,000 in the UK, as well as to-door courier and fulfilment services to e-commerce merchants. Strategically positioned in the fast-growing ecommerce market, InPost’s strategy is further enhanced by our investments in technology, as well as the benefits of the “flywheel” effect that provide consumers, merchants and our planet a best-in-class, lower cost, more convenient and sustainable form of last mile delivery. Through our delivery services, InPost is creating a greener solution for e-commerce, as APM deliveries reduce CO2 emissions by up to two-thirds compared to to-door deliveries in urban areas, and by up to 90% in rural areas, as well as significantly reducing traffic and noise pollution.

In 2021, InPost handled almost 518 million parcel deliveries through its networks in Poland, France, the U.K, Italy, Benelux and Iberia. In the twelve months to 30 September 2021 InPost generated PLN 3,777 million of revenue and other operating income and PLN 1,460 million of adjusted EBITDA.

In July 2021, InPost successfully completed acquisition of Mondial Relay to create Europe’s leading out-of-home automated solution for e-commerce.
