

[Unveiling the Complex Dynamics of Under-Deposit & Microbiologically Influenced Corrosion in Electrically Conductive Deposits](#)

Updated on : Mar 04, 2025 11:05 am

Synopsis: In this detailed study, researchers explore the combined effects of under-deposit corrosion and microbiologically influenced corrosion in the presence of electrically conductive deposits like magnetite and troilite on carbon steel. The findings highlight how both abiotic factors, electrical conductivity of deposits, and biotic factors, microbial activity, influence the corrosion rates of pipelines, offering new insights that could shape future corrosion prevention strategies in the oil and gas industry.

[Tubacex Sees Mixed Financial Results in 2024 Despite Strategic Growth & New Contracts](#)

Updated on : Mar 04, 2025 11:04 am

Synopsis: Spain-based Tubacex, a leading seamless stainless steel pipe producer, reported mixed financial results for both the fourth quarter and full year of 2024. While the company saw a small rise in net profit for the quarter, it experienced a decline in sales revenue and EBITDA year-on-year. Despite these challenges, Tubacex strengthened its position in the gas extraction market, securing key contracts with Petrobras, indicating potential future growth.

[Severfield's Tumultuous Journey: Project Delays and Profit Warnings Push Shares into Freefall](#)

Updated on : Mar 04, 2025 11:03 am

Synopsis: Severfield, the UK's leading structural steel fabricator, has issued a profit warning, resulting in a near-50% drop in its share price. The company cited project delays, tight market conditions, and uncertain economic factors as the main reasons for its struggling performance, leading to a cancellation of its £10 million share buyback. Despite challenges, Severfield remains optimistic about long-term opportunities, especially in the green energy and data centre sectors.

[Whyalla Steelworks Faces Financial Chaos: Prepayments, Losses, and Rescue Talks in Crisis](#)

Updated on : Mar 04, 2025 11:01 am

Synopsis: The Whyalla steelworks, part of Sanjeev Gupta's GFG Alliance, is experiencing dire financial troubles, with daily losses reaching \$1.5 million. In a desperate attempt to mitigate the crisis, the company sought prepayments from customers for steel that hadn't been manufactured yet, complicating the process of stabilization. Appointed administrators are now working under pressure to manage the \$319 million in losses from the previous seven months, and the Australian government has stepped in with a \$2.4 billion rescue package to avoid a total collapse. With BlueScope potentially in the mix as a buyer, the fate of the plant remains uncertain, with months of restructuring ahead.
